EXAMINER'S COMMENT

Inventorship

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

REASONS FOR ALLOWANCE

- 2. Claims 1-17 are allowed over the prior art of record.
- 3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1, 5, 7, 10 and their extended claims is the claimed subject matter regarding "code for determining a noise index by processing samples of a signal generated in a cylinder of such engine in accordance with a shift invariant wavelet transform, such processed samples being only samples taken during a window less than a full engine cycle" which the prior art references did not disclose.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably Art Unit: 3747

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
